

Networking Workshop

On

Contaminated Sites: Subsurface Investigations and Remediation

July 12th & 13th 2018,

Organised by: Geoenvironment Group, Civil Engineering Department, IIT Delhi

Network (NERCS):

Under a project sponsored by MoEF&CC – World Bank (CBIPMP) at IIT Delhi on "Capacity Building of Academic Institutions IIT Delhi to support Remediation Initiatives", an activity is being coordinated for setting up of a **National Network of Experts and Resources for Subsurface Investigations and Remediation of Contaminated Sites (NERCS)** within the next 4 months.

NERCS will be a virtual network and will be accessible to all.

To receive an invitation to join NERCS, please download and fill [Annexure A](#) and email it to nercsiitd@gmail.com

Workshop:

A workshop of the Experts will be held at Delhi on 12th and 13th July 2018 to:

- (i) Share the output of activities under MoEF&CC – World Bank CBIPMP project.
- (ii) Share experience of experts through case studies on contaminated sites.
- (iii) Collate the expertise and resources available across the country at various R&D Institutions, Regulatory Bodies, Consulting Organizations and Testing Laboratories, and
- (iv) Identify gap areas needing strengthening.

To pre-register for the Workshop, please download and fill [Annexure B](#) and email it to nercsiitd@gmail.com

Suggestions:

If you have any suggestions on how we can create a relevant and useful network, in a short time frame, which can supplement the efforts of regulatory and policy-making bodies, kindly share the details with us. Also please do forward names and contact details of persons whom you may know to be involved in this area. This would be very helpful.

Coordinators:

Prof. Manoj Datta & Prof. G.V. Ramana
Department of Civil Engineering, IIT Delhi
